mixed, No. 1, \$5.50@6.00; No. 2 \$5.00@5.50; clover @5.50.

Receipts of wheat at primary points yesterday were 1,182,000 bushels and shipments 311,000 bushels.

Clearances from the four Atlantic ports yesterday were 123,474 bushels of wheat, 16,245 barrels of flour, flour and wheat equal to 201,490 bushels of wheat; corn 332,-600 bushels.

The Hungarian minister, who compiles

than in 1896.

The English farm deliveries of wheat for the first six weeks of the present crop year are almost the largest in seven years, being 5,332,000 bushels, against 2,902,000 bushels the same time last year, and 5,554,600 bushels four years ago, which were the largest ever reported. The crop this year is 56,000,000 bushels, against 38,400,000 bushels last year, 60,800,000 bushels four years ago, and 75,000,000 bushels six years ago.

Bradstreet's reports available stocks of

ago, and 75,000,000 Dushels six years ago.

Bradstreet's reports available stocks of wheat east of the Rocky mountains, exclusive of those in the official visible supply statement, as follows: Increase, 31,000 bushels in Chicago private elevators, 300,000 bushels in Northwestern interior elevators, 150,000 bushels at various Manitoba storage points, and 140,000 bushels at Galveston; decrease, 195,000 bushels at Fort William, Ont.; 35,000 bushels at Cleveland, and 25,000 bushels at Omaha.

The Liverpool Corn Trade News says:

Ont.; 35,000 bushels at Cleveland, and 25,000 bushels at Omaha.

The Liverpool Corn Trade News says: Reports confirmatory of the poor Russian outturn continue. In the latest advice our correspondent writes that the crops are really not much better than in the famine year. He considers that the total yield of winter and spring wheat will be 26,000,000 quarters. It is rather difficult to know with what to compare this figure, but taking the lowest estimate of the 1895 crop, which was 38,000,000 quarters, and was issued by the minister of agriculture, here would be a deficit of 12,000,000 quarters. Similarly the rye crop is estimated at 72,000,000 quarters, against 89,000,000; barley, 17,000,000 quarters, against 23,000,000.

Thoman, in his October crop report puts

year, he figures the reserve at the end of June will be the smallest in thirteen years. The total corn crop was put at 2,502,000,000 bushels, or 102,000,000 bushels in excess of last year. The quantity of old corn in producers' hands is put at 358,000,000 bushels. The total oats harvest is estimated at 755,000,000 bushels, against \$50,000,000 bushels last year.

## AN EXCITED WHEAT MARKET.

BIG BULGE IN PRICES ON THE CHI-CAGO BOARD OF TRADE.

Foreign Markets Strong, in the Face of Tuesday's Break Here-December Closes 1 7-Se Higher-Corn and Oats.

Chicago, Sept. 30.-The strength shown by foreign markets in the face of the de-cline here yesterday and the unanimity with which offers for export were accepted were a tremendous surprise to local wheat operators. It resulted in an advance of 1%c in the price of December, that month selling at one time %c higher than that. Corn and oats were but little affected, but advanced 1/4c and 1/4c, respectively. Provisions closed 21/4c lower to 21/4c higher. The first reports received from Liverpool to-day quoted that market quiet and un-

changed, and such steadiness there, after the weakness developed by this market yesterday, indicated a strength of feeling abroad that the crowd had not been prepared for. The effect was marked. The opening price of December was from 66%c to 67%c, compared with 66%@66%c at the close yesterday, and it sold immediately at 67%c. But such a considerable jump as this was more than the average speculator could stand, and their action took the form of selling a good deal of wheat, causing a reaction to 66%c. They received some encouragement from the Northwest receipts, which were 831 cars, against 99 last year. This, however, was a great falling off from yesterday. That was all the decline such selling occasioned, however, and as soon as the tide began to turn the bullish sentiment set in again with redoubled force. A later Liverpool cable reported wheat from this was more than the average speculator

ment set in again with redoubled force. A later Liverpool cable reported wheat from 3d to 1d higher. This put the seal on the change of sentiment from bearishness on the night before to the pronounced builishness which marked the session. San Francisco added to the fever raging in the pit by wiring that foreigners were buying everything offered and at 2c above yesterday's ruling prices. A great deal more of a sensationally bullish character was passed around among the speculators, the consequence of all of which was that the price of december wheat had risen to 63%c before 12 o'clock.

New York wired that Liverpool market was exclted, higher, and with buyers at the advance, and that wheat in London was higher than at any time since 1891. Excitement in the Liverpool wheat market, which has always been regarded as the north pole of unchangeable frigidity, was perhaps the chief cause of the burning desire for wheat, which the rise of 2%c per bushel exemplified. The market continued very nervous during the last hour, and fluctuations were frequent. During the last twenty minutes there was a sharp break, due to urgent realizing; December declining to 67%c, but a reaction occurred, and that month was selling at the close at 68%68%c.

Corn was firm, being influenced chieffs

and that month was selling at the close at 65%66%c.

Corn was firm, being influenced chiefly by the bulge in wheat. The bad weather is also expected to cut off receipts some and help prices to a certain extent. Trading was very quiet, interest being confined almost entirely to wheat. May opened unchanged at 25%c and advanced to 25%c, at which it closed.

In oats trading was decidedly limited. A firm feeling prevalled and prices were higher, but not from any independent source. Wheat and corn influenced fluctuations entirely. May opened a shade higher, at 19%c, sold to 192619%c, and closed steady at 19%c asked.

The provision trade was largely con-

19½c, sold to 19Z@19½c, and closed steady at 19½c asked.

The provision trade was largely confined to changing of October contracts to January. It still suffered, however, from the liberal run of hogs. The strength of wheat helped what appeared to be otherwise a very weak market. Lard alone closed with some improvement. January pork closed 2½c lower, at \$6.97½; January ribs, 2½c lower, at \$4.10; January ribs, 2½c lower, at \$4.24@3.45.

Estimated receipts Thursday: Wheat 192

24c lower, at \$3.424-62.45. Estimated receipts Thursday: Wheat, 182 cars; corn, 625 cars; oats, 285 cars; hogs, \$5,000.

Stocks and Bonds.

New York, Sept. 30.—The stock movement to-day was irregular and the volume of business was somewhat lighter than on Tuesday. At intervals during the afternoon the dealings were marked by considerable animation, but the market lapsed into comparative duliness in the afternoon session. There were but few influences of an important general bearing aside from a firmer market for stering exchange and more favorable attitude toward our securities on the part of foreign dealers. Quotations for American securities came higher. Around delivery hour a bear pressure caused a shading in prices all around. The closing was heavy at irregular fractional changes, mainly declines. The heavy buying of Reading bonds continues to attract general attention. Sharp gains were made at the outset, but the improvements were not retained. The general market ruled firm, but otherwise featureless.

AT THE CITY HALL.

Minor Happenings of One Day in the Municipal Departments.

City Treasurer Green is prosecuting a vigorous campaign against the army citizens who are attempting to evade the payment of personal taxes. He has employed a number of deputies whose busi-ness it is to collect the taxes or attach the property of the person refusing to pay. According to the city charter, he is charged up with all the property appearing upon the assessor's books, and for this he must either make returns in taxes collected or make affidavit that he has searched for the property described and failed to find it. Personal taxes will this year be collected closer than ever.

The force of ten sanitary inspectors connected with the health department was yesterday morning reduced to three, on account of shortage of funds. The expense of the department during the warm weather has averaged \$2,000 per month. "This heavy expense." said City Physician Coffin, "is partially due to the general use of gas stoves. Housekeepers cannot burn their garbage, as when coal or wood stoves were used, and the result is that the accumulation of garbage is more than doubled. The usual number of garbage wagons will be kept in operation."

A month ago Minnie Jackson fell through a plateglass window near Fifth and Grand avenue. A fragment of glass made a deep incision in her left arm. She did not conincision in her left arm. She did not consider a physician's services necessary and washed and bandaged the wound herself. Since then the wound has healed, but a constant pain in the injured part caused her to call at the city physician's office yesterday, where Dr. C. H. Smythe removed a splinter of glass two inches in length.

There is much complaint about the city hall of apathy in the city scavenger's de-partment. Superintendent of Streets Wal-ter Davis alleges that Scavenger Theodore Clay won't work and that he, Davis, is having to do the cleaning about the city

"Jake" Lewis, night watchman at the city hall, was yesterday notified to turn over his keys to the janitor. No charges were preferred. It is supposed that his successor will be one of the ex-police offi-

cers. The work of cleaning the rese the Quindaro pumping station has been completed and Superintendent Langwell says that by Sunday the city water will be clear. Seven acres of dirt nine feet deep were removed.

Mayor Jones yesterday issued a call for a special council meeting for to-night. The license ordinance and the West Side street railway franchise will be the principal mat-

The upper house finance committee holds in the city hall at 9 o'clock this morning to consider the license ordinance. The committee hopes to be able to report

The city will to-day pay the semi-annual interest, amounting to \$5,000, on the 150 city hall bonds, and 100 O. K. creek sewer

Trying to Replevin Money.

I. S. De Forde, who has a patent process for making pure apple cider without the use of apples, appeared in Justice Case's court yesterday as plaintiff in a replevin suit to recover \$128 from Gus Krueger, proprietor of a saloon under the Eureka hotel, Fifteenth and McGee streets. He alleged that on September 8, he drank copiously of his concection and then in the evening went to Krueger's saloon and took about two fingers of whisky. He imthe evening went to Krueger's saloon and took about two fingers of whisky. He immediately felt that his senses were leaving him, and, fearing he would be robbed, he alleges that he gave Krueger \$125 to keep for him. When he became conscious he was at his home. It was daylight and he was penniless.

Krueger admits that De Forde was in his saloon and that he sold him a drink, but denies that he received \$128 from his customer. The case will be resumed to-day.

Court Notes. William Burke, alias William Larkin, a desperate character and all around criminal, who was arrested by the police last Saturday, was committed to the jail on a capias warrant placed in the hands of Deputy Marshal Whig Keshlear. He was indicted by the grand jury for assault with intent to kill.

Samuel Hey and John Hey were arrested at Third and Oak streets yesterday afternoon by Deputy Marshal Holly Jarboe on a capias warrant, and furnished bond. They were indicted by the grand jury for having received stolen goods.

The arguments in the federal court on the motion to dismiss the case of Green Wille. motion to dismiss the case of Greer, Mills & Co. against the Live Stock ex-change were heard by Judge Philips yes-terday and occupied nearly all day. The terday and occupied nearly all day, decision will be given later.

The pens were again full yesterday. The run was heavy and there were some hold-overs. The result was a slow and generally lower market. There were very few export steers in and no fancy lots. Some of the best were steady, but most of the offerings were lot lower. Native cows were steady and active. Offerings only moderate. Stockers and feeders were in liberal supply and the market broke 1000 15c. At the reduction, however, there was fair trading. Range cattle made up the bulk of the offerings. There were 175 loads in the native division and 114 loads in the Texas division. Market culet and prices generally off 10c. at which decline quite a number of cattle changed hands in a quiet way. Milch cows in good demand and firm. Common, \$15018; medium to fair, \$200.25, and good to choice, \$250.00.

SEPTEMBER RECEIPTS OF CATTLE LARGER THAN PREVIOUS MONTHS.

ggregated 280,000, an Excess of 14,0 000 Over the Same Month Last Year-A Decrease in Chicago's Receipts.

Yesterday closed September and the most active month ever known in the mar-ket here The receipts of cattle reached for the month 230,000, the greatest number ver received here in a single month, and 14,000 greater than the same month last year. While Kansas City made a good gain Chicago lost 24,000 cattle compared with September's receipts of last year, and Omaha also fell behind in its receipts. As the number of cattle in the West is said to be short, Kansas City's growth has been at the expense of Chicago and Omaha, Utah, Nevada, Idaho, Wyoming, Western Colorado and even Dakota and Minnesota are increasing their shipments to this mar-ground with the trade west of thhe Mis-So far this week there have been 10,000 So far this week there have been 10,000 more cattle on the Kansas City market than the same time last year.

Kansas City is not only having heavy cattle runs, but heavy sales as we'l. The sales Tuesday reached 14,400 out of receipts of 14,464, and a few holdovers, an activity that even Chicago might feel proud of.

"'RASTUS ON PARADE." That's What the Band Played When

Samuel W. Moore and Bride Appeared at the Depot. There was sound of revelry at Union de On the rear platform of special Santa Fe car No. 214, which stood by itself on one of the outer tracks, was grouped the Pick-aninny band, playing "'Rastus on Parade"

furiously. All about the car was a grin-ning, gaping crowd of passengers, depot employes and hangers-on. Presently a big red-mustached man, dressed in his best clothes, followed by a number of ladies and gentlemen, hove in sight. The big man held a small grip in one hand and wore a look of extreme sheepishness. A wore a look of extreme sheepishness. A steady shower of rice at the hands of several young men, who kept prancing about him tooting tin horns, when not otherwise engaged, kept trickling down his neck and running off the brim of his hat. A tail young woman in a blue dress right behind him, who was being held up by another young woman equally tail, was a target for rice, too.

The big man made for the wrong train and was hooted for his pains. The laughter and hubbub which had been growing every minute reached a climax when the merry young men produced and branished

ter and hubbub which had been growing every minute reached a climax when the merry young men produced and branished three large placards such as are carried in political parades. On them in staring black print were these legends: "Sammie and Harriett," "Hurrah, Just Married," "It Is the Tail Couple." A fourth sign, but this of paper, inscribed, "So the Bridegroom Cometh," was seized by the young woman in the blue dress and laughingly torn to pieces. The explanation of all this is at 4:30 o'clock yesterday afternoon Mr. Samuel W. Moore, of Lathrop, Morrow, Fox & Moore, the attorneys, was married to Miss Harriett Cook, a daughter of J. D. S. Cook. The ceremony took place at Gracechurch and was performed by Rev. Cameron Mann. They left for Chicago on their wedding tour, accompanied by a party of friends: Mr. and Mrs. Charles Hibbard, Mr. and Mrs. Cyrus Crane, Dr. W. F. Fairbanks, Miss Mary McCabe, Mr. I. L. Bunker and Mrs. Bunker, Benjamin Burgess, Miss Bertha Pepper and Mr. O. W. Pratt.

EUGENE DEARBORN ARRESTED.

Indicted by the Late Grand Jury for Burgiary in Second Degree. Eugene Dearborn was arrested by Deputy Marshals Holly Jarboe and Tom Herson, at Twelfth and Walnut streets, at about 5 o'clock yesterday afternoon. Dearborn was indicted jointly by the late grand jury with Gustave A. Kraft, the charge against them being burglary in the second degree. On September I, Kraft, Dearborn and Mrs. Grace Gamo, the wife of W. D. Gamo, formerly local agent for Scribner & Sons, publishers, went to the house of Mrs. A. L. J. Lilly, at 2936 Garfield avenue, and forcibly took away Gamo's children. Bertha and Dorothy. Mrs. Lilly is a sister of C. B. Smith, who was Gamo's assistant. Kraft is a telegraph operator in New York and is Mrs. Gamo's father. The party was arrested the day after at Glasgow, Mo., and brought back here. Kraft and Dearborn were arraigned in Justice Krueger's court, where they gave ball. son, at Twelfth and Walnut streets, at

MRS. SELLERS DETERMINED TO DIE. When Saved From Death Says She Will Try Agnin.

Mill Try Again.

Mrs. Annie Sellers swallowed 15 cents' worth of morphine yesterday afternoon because she had trouble with her husband, a man who makes every effort to evade supporting her. She was removed to Central police station, where, after a desperate struggle, Surgeon Landon applied restoratives and the woman's life was saved. She has determined to die and the surgeon was just as determined to save her. She swears she will take morphine again and take enough to kill herself before medical aid can be summoned.
